Requisition of new partner colleges

Dear Sirs,

Our college of hospitality-, facility- management and catering is active in the EU exchange and we like to gain new partner colleges and internships with this request. With careful investigation we become aware of you and your college so we are interested to cooperate with you.

All of our students have the vocational qualification in areas like housekeeping, food services, chefs, restaurant and hotel management. In our further education we strive for the qualification to a manager for hospitality and facility enterprises.

We also welcome students from all over Europe in our college and for internships in chosen hotels and companies.

With this e-mail we send you information about our training course and priorities of our further education. I will send you the link from our homepage which is [b7-nuernberg.de](http://b7-nuernberg.de) so you can get a better impression of our college. Also we would like to find out more about your education and training.

We are looking forward to getting for a positive response.

Yours sincerely

Viva Europa – We connect people
